

The new Chris-Craft XK-22. The sport boat that stole the National Boat Show.

Everyone young in heart fell in love with it. And no wonder.

A sleek low profile gives the XK-22 the look of an arrow. But the cockpit has all the room you could want. So much in fact, that you just swivel the forward bucket seats to face the aft seat, and it's party time for five.

A tinted windscreen to eliminate glare is standard. As is a siesta pad on the aft deck. A comfortable sleeping pad below the forward deck is an optional pleasure.

From stem to stern the XK-22 is the absolute latest. You'll shear through the water at better than 50 mph, powered by a high performance 350 hp Chris-Craft Transdrive® unit.

And the new deep V hull design will give you an amazingly soft ride, even in choppy waters.

The XK-22. More of a sport boat than any sport boat has ever been. Worth more when you buy it. While you enjoy it. When you sell it.

Chris-Craft®
More than a boat . . . a way of living.
